WORK EXPERIENCE

- VDT Communications — Frontend Developer

March 2026 - Present

Collaborate with cross-functional teams, backend developers, and solution experts to build and maintain enterprise platforms and portals — including payment, Active Directory identity management, OLA operational workflow, and e-invoicing systems — using Angular, React, TypeScript, and Tailwind CSS, while integrating REST APIs, leveraging AI-driven development tools to speed up delivery, and supporting QA and bug fixes on core ERP systems.
- Flickssolutions Limited — Frontend Developer

June 2025 - December 2025

- Worked closely with UI/UX designers and backend developers to build responsive, user-friendly interfaces using Angular, focusing on performance, accessibility, and clean component-based architecture.
 - Accelerated component creation cycles by integrating AI-assisted coding methodologies while adhering strictly to design specifications.
- Sweep Drones Limited — Frontend Developer

February 2024 - January 2025

- Collaborated with cross-functional engineering teams to translate intricate UI/UX designs into responsive, high-speed web applications.
 - Developed intuitive and accessible interfaces, writing clean, reusable, and maintainable code.
- Swifo — Frontend Developer

August 2023 - December 2023

- Worked closely with designers and product managers to implement interactive, visually appealing user interfaces, ensuring consistency across devices and browsers while optimizing for performance and accessibility.

CERTIFICATES

- Node.js, Express, MongoDB & More: The Complete Bootcamp (Udemy)

Credential ID: UC-f0a16dc3-bacb-408f-ba0b-f1638c812961 | [View Certificate](#)

Issued: September 2026

- Gained hands-on experience building backend applications with Node.js and Express, designing RESTful APIs, working with MongoDB, data modeling, authentication, and integrating backend services with frontend apps.
- Angular The Complete Guide (2025 Edition) (Udemy)

Credential ID: UC-c0460cbc-f87e-46f1-937e-82cf624a61db | [View Certificate](#)

Issued: November 2025

- Completed advanced training in Angular covering component-based architecture, routing, state management, and API integration to build dynamic, responsive web applications.
